

DIPLOMA IN LOGISTICS & SUPPLY CHAIN MANAGEMENT

SAQA ID 85028 | NQF Level 6

About the Diploma in Logistics and Supply Chain Management

The Diploma in Logistics and Supply Chain Management aims to develop students in gaining a wide range of professional, vocational and industry-specific intellectual competencies, knowledge and practical skills. The graduate should be able to take decisions in the context of a logistics and/or supply chain organisation, to analyse relevant information, and produce innovative responses to concrete but often unfamiliar problems based on informed judgement. The programme is delivered through distance learning, which provides much needed flexibility for full-time employed individuals.

Please note: Students need to have access to a computer with Internet.

"OLG has given me the opportunity to study while still being able to provide for my family. The structure of the curriculum is such that one can easily adapt and plan the studies around their daily schedules. The interaction with the administration staff, lecturers and even the department heads is phenomenal. This type of interaction, I believe, is the great success of the OLG story."

Guanita De Lange, Diploma in Logistics and Supply Chain Management
