

Part Time Studies Short Learning Programmes

Short Learning Programmes (SLP) are **ideally suited to individuals who want to upskill in a specific area** in the logistics and supply chain industry. They are also aimed at individuals who have **successfully completed a tertiary qualification** in a different field of study, but whose career path has developed within the fields of logistics and supply chain management.

**NOF
Level 7**

Advanced Supply Chain Management (NOF Level 7)

This short learning programme will suit Individuals who want to gain relevant knowledge, skills and applied competence to participate in the strategic management of the supply chain.

The aim of this SLP is to equip the student with knowledge and skills for supply chain performance, supply chain drivers and metrics, demand forecasting, aggregate planning, sales and operation planning, coordination in a supply chain, sourcing decisions and information technology in the supply chain.

What can students expect?

The student will be exposed to some the following learning areas:

- Discussing the various issues to consider when designing, planning or operating a supply chain
- Describing how to create a strategic fit between a competitive strategy and a supply chain strategy
- Understanding the impact that creating a strategic fit between an organisation's competitive strategy and a supply chain strategy will have on competitiveness
- Explaining the importance of expanding the scope of strategic fit from one operation within a company to all stages of the supply chain
- Defining the logistical and cross functional drivers of a supply chain
- Describing how the drivers of a supply chain are used in design, planning and operation of the supply chain
- Identifying the key metrics that track the performance of the supply chain in terms of each driver
- Understanding the role that forecasting plays in the supply chain

Admission requirements

You should have intermediate knowledge and/or experience of Supply Chain Management to be able to cope with the advanced programme.

Duration and mode of delivery
